PMJAY 2.0 – Provider Portal

Executive Summary

Suvarna Technosoft Pvt. Ltd. brings over 20 years of healthcare IT expertise with successful HIMS implementations across 450+ hospitals in India. Our PMJAY 2.0 Provider Portal enables seamless preauthorization and claims integration with insurance companies. The solution supports hospitals with or without HIMS and also integrates with third-party hospital systems using APIs. This flexible architecture ensures rapid onboarding, standardized data exchange, and faster claim settlement while maintaining full compliance with NHCX standards.

Scope of Work

- Patient registration and coverage verification
- Preauthorization workflow with document upload
- Claims submission and tracking
- Integration with insurance companies via APIs
- Support for Suvarna HIMS, standalone hospitals, and third-party HIMS

Conclusion

This proposal demonstrates Suvarna Technosoft’s readiness to partner with insurance companies for scalable, secure, and standards-compliant digital health integrations, contributing to the national healthcare digitization mission.
